

Enrollment of local, day (non-boarding) students has been steadily increasing. We saw a significant jump in enrollment in 2015 when we reopened the elementary school and offered transportation. We currently have about 250 local students enrolled at OBI, more than half of OBI's total enrollment.

Our day students benefit from the diversity of students at OBI which helps to prepare them for their post-secondary education and work-place experiences while building relationships that are truly unique in the state of Kentucky.

Following the vision of OBI's founder, James Anderson Burns, it is our privilege to provide a distinctly Christian education in Clay County!

Outstanding. Bold. Inspiring.
